In recent years there has been a large influx of web-based technology vendors with solutions to simplify the administration of Benefits along with HR and Payroll. We realize that identifying and then implementing the right solution can be a challenge, and if you are going to roll it out to employees it has to be good. As a result we have expanded our services to include HR and Benefits Technology Advisory and Support Services.

So we're asking for your help in understanding our current HR-Benefits-Payroll technology environment and possibly identify trends within our customer base. This survey will only take a few minutes. Your participation would be appreciated.
